

Dealing with the opioid crisis is a **team effort.**

Dear Valued Provider,

We don't need to tell you that more than 2 million American men and women with opioid use disorder (OUD)* constitutes a healthcare crisis — as providers, you are facing this epidemic every day. But you don't have to do it alone. Home State Health wants to help you be even better equipped to address the opioid epidemic in your community.

Buprenorphine has been proven to be a clinically effective in-home therapy for opioid use disorder in populations including pregnant women.

That's why Home State Health is sponsoring a FREE training for providers to qualify for the waiver to prescribe buprenorphine. This training will be conducted by the American Society of Addiction Medicine (ASAM). It includes:**

- ✓ Four hours of online training at your own pace
- ✓ Four hours of live, interactive training in St. Louis, MO, held from 8:30 am to 1:00 pm CST on four dates (or you can attend the live training remotely by streaming it on your device):
 - **March 29, 2019**
 - **June 28, 2019**
 - **September 13, 2019**
 - **November 8, 2019**

The three dates in orange feature curriculum designed for women's health providers in partnership with the American College of Obstetricians and Gynecologists (ACOG).

And you will also get for FREE:

- ✓ Continuing Medical Education Available
- ✓ A copy of the ASAM National Practice Guideline
- ✓ A reference guide and other clinical resources

Register Today!

Caring for our neighbors really does take a team. We encourage you to take advantage of this important training and certification opportunity.

Sincerely,

Register today! [HomeStateHealth.com/ASAMtraining](https://www.HomeStateHealth.com/ASAMtraining)
