

**Re: Transition of our specialty pharmacy to Accredo and availability of additional Limited Distribution Drugs (LDDs)**

Earlier this year, we announced that Express Scripts is now part of Cigna. We are writing to inform you that Accredo®, part of Express Scripts' portfolio of services, will be Cigna's preferred specialty pharmacy. Accredo will offer our customers easy access to online ordering, the convenience of home delivery, and support services for their specialty drugs.

**Access to additional exclusive or limited specialty drugs**

Starting July 13, 2019, providers and customers will have access to an additional 60+ specialty LDDs from Accredo that are not available from Cigna Specialty Pharmacy. Using Accredo may result in lower out-of-pocket costs for customers.

A current list of LDDs available to your patients with Cigna coverage is on the Cigna for Health Care Professionals website (CignaforHCP.com > Resources > Pharmacy Resources > Specialty Pharmacy > Limited Distribution Drugs List). We will update this list later in July to include the additional LDDs available from Accredo.

**Open refills transition to Accredo**

To ensure a smooth transition, in August 2019, Cigna Specialty Pharmacy will begin transferring current specialty drug prescriptions that have open refills to Accredo. Affected customers will be notified in advance of the transfer and made aware that their next refill will be available from Accredo. If you have a patient with an open refill at Cigna, you will receive a letter when the refill has been transferred to Accredo. We anticipate this transition will be completed by the end of 2019.

**Summary of changes**
